

Building and Grounds Committee Report
November 2021

- i. Cameras: After hours camera was discussed. Kathy will investigate some options and we will discuss more in the next month. We hope to install something in January with Board approval.
- ii. Jeff is in the process of getting new bids for plowing the lot this winter.
- iii. We are hosting a Fall Clean-Up on November 21st from 1-4pm. Volunteer help needed and appreciated.
- iv. Installed a no trespassing sign at the front door.
- v. Alissa D., an employee of the Club, has started an epoxy countertop business and showed her product to B&G committee. She gave us a bid of \$3,600. The committee has decided to go with her product instead of granite. Epoxy would be as durable as granite but is also repairable if it were ever to chip.
- vi. We had our annual Fire Inspection which came up with 3 issues that needed to be corrected: replace an emergency exit light, put a cover on the bathroom fan, and have fire extinguishers inspected. All of the issues have been corrected.
- vii. Next meeting: Wednesday, December 1st at 6:35pm
